The International Private Physical Therapy Association (IPPTA) represents worldwide physical therapists working in the private sector.

About us

- The essential commitment of IPPTA is to encourage and enhance the development and advancement of private practice in physical therapy globally.
- The International Private Physical Therapy Association (IPPTA) is a non-governmental affiliation of Private Practice Organisations of National Physical Therapy Associations. It is a collaboration of international independent practitioners in physical therapy.
- Association Members are the recognised Private Practitioner Sub Sections of the parent Physical Therapy Associations which are members of the World Confederation for Physical Therapy.

Objectives

- To** foster co-operation between physical therapists in independent practice throughout the world.
- To** encourage improved standards of independent practice by physical therapists.
- To** advance independent practice by communication and exchange of information.
- To** encourage scientific research and promote opportunities for the spread of knowledge of new developments in the field of independent practice.
- To** organise at regular intervals meetings on all aspects of independent practice with particular focus on the business aspects of private practice.
- To** present a profile and representation of private physical therapy at an international level.
